DETAILED ACTION

1. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The use of parenthesis in the claim renders the claim indefinite.

“two postions” has no antecedent basis.

2. Claim 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Jack. Jack teaches a cover comprising an outer bag having a single opening, and a inner bag having a single opening and fused at the at the edge, the outer bag having an air valve 32 as shown in Figs 2 and

3. Note that the method claim in claim 2 does not impart any structure over the cover in Jack and there are fusing edges in the cover of Jack.

Regarding the single opening, the zipper when closed would have a single opening as claimed.
